MODEL 2050 | Privacy & Psychiatry in the Future

MODEL 2050 | Privacy & Psychiatry in the Future shows the works made during the Summer School of The Fifth Season. Fourteen artists, together with peer consultants from HVO Querido, focus on the question of how private our mental health is in the future. We take the year 2050 as focus point.

Privacy is an important topic within GGZ and in society at large. What do we share with others and what is private? What influence do social media and future technologies have on our autonomy and personal experiences? Can they help reduce the taboo on mental illness and positively influence our well-being?

In the exhibition you will be introduced to stimulating ideas, speculative concepts and visual representations about privacy and psychiatry in the future.

With works by the artists: Petra ten Brinke, Aalt van de Glind, Hyo Min Gweon, Coen van Haaften, Renée van Hagen, Rachel Heemskerk, Rik de Heus, Sterre Herstel, Lucia Kooiman, Janneke Kornet, Heleen Kruijt, Julia Olausson, Nina Pen, Lore Pilzecker, Saskia Scherpenzeel, Leonard Schmidt-Dominé and Hagar Schuringa.

Exhibition MODEL 2050 | Privacy & Psychiatry in the Future

August 29 - September 15, Wednesday - Sunday 12.00-18.00
